

Script Wizard

Current Release Version: 2.0

Reduce efforts of administrative tasks!

You can use scripts to maintain and issue a series of commands with command line programs such as infacmd, infasetup, pmcmd and pmrep. Using Script Wizard will help you maintaining your scripts easily and reducing efforts of administrative tasks.

Script Wizard guides you through the steps to create command line scripts for Informatica PowerCenter™.

Features

Usability

Easy to use wizard application. Every step takes only a few clicks. Drag 'n' drop support. Open/save script file with wizard.

Commands

Script Wizard fully implements and supports infacmd, infasetup, pmcmd and pmrep commands for Informatica PowerCenter™.

Editor

Feature-rich editor providing Unicode support, syntax highlighting, command reference and examples, Find/Replace and Go To Line dialog, Undo/Redo function, advanced edit functions (convert characters, change case, transpose, etc.), WYSIWYG printing, and more!

Preview

Summary of specified settings and options. Preview of script file.

Output

Save output to Unix and Windows file formats. Copy output to clipboard.

Help

Help for common tasks.

Services

1 year maintenance and premium support.
